MEMORANDUM TO Mr. Lawrence J. Hollander
 Assistant To The Dean
 School of Engineering and Science

SUBJECT Payment to WNYU Radio Station

At the time I assumed the managership of this cafeteria in September 1963, I made several efforts to contact the WNYU Radio Station to repair our equipment properly and have music piped into our cafeteria. Finally, after one and a half months, I met with Mr. Paul Bell from the station who was very helpful and who tried his utmost to fix our equipment. However, this was not accomplished until January 1964 where we had music for about one or two weeks before the equipment broke again. Consequently, I had again met with Mr. P. Bell in which he informed me that he was still trying to fix whatever was wrong with our equipment. I asked him at that time about the charges. However, he declined to talk about it because we were not getting a continuous reception. I asked him that if there were to be any charges I would like to draw up a contract. Again he declined my offer due to the continuous technical difficulties.

Relative to renogiating a contract for the period stipulated in your letter, you can check with the gentleman at the station and you will find that no written contract was made with me nor did I make any verbal agreement with the station to pay \$45.00 for the music service. I did mention that I was willing to pay if I could get the music continuously; but as I mentioned previously that in a personal conversation with Mr. Bell, he declined those charges due to technical difficulties throughout the whole year. In fact, music for the candlelight dinners was piped in only twice.

I am sorry that this disagreement has occurred between the WNYU Radio Station and this unit; but as I told one of the gentleman from WNYU, this matter will be simplified if they contact Mr. Bell.

If I can be of any further service to help clarify this matter, please let me know.

Sincerely,

G. Velazquez
Manager,
Julius Silver Dining Hall
